WHITE SULPHUR SPRINGS, POWELL'S FORT, SHENANDOAH COUNTY, VA.
THE proprietors of these Springt are prepared to receive and accommodate visiters. This delightful Walering place is situated eight miles east of Woodstock, between the Fort and Mansanutten Mountains. The new Building (one hundred leet in length,) commenced last season, has been completed, and is ready for the reception of HOARDEKIS; and a number of Cottages, or the use of Families, have been erected convenient to the boarding apartment. Families, have been erected convenient to the boarding apartment.

These SPRINGS consist of White, Blue and Black Sciphor, Chartsester, Limestone and Slate, all having their fountains within a circumference of thirty yards!—the work of Nature's own labratory. They send forth a sufficient quantity of pure water to supply many thousands of persons daily. They are situated in a flat, or rather basin, the ground gradually rising to the south and east until it reaches the western base of the Manasmutten, from whichis presented to the eye of the beholder one of the hoostenchanting landscape views in the country. To the south, south-east, and east, there are a number of mounds, rising up at distances of from 25 to 100 yards, and from 25 to 100 feet above the level bottom in front and to the north-west of the Springs. Many of these elevations can be approached from the east or rear, by a gentle ascent. The Fort Mountain, with its picturesque scenery, its juting spurs, its deep ravines, and its lotty peaks, presents a panorams, which, for bold outline and pleasing variety, is is meaurpassed by any mountain scenery in Virginia. Indeed, the scenery presented to view from the summits of the Manasmutten and Fort Mountains, embracing the Page and Warren and Shenandoah Valleys, must be seen to be appreciated.

the Manaanutten and Fort Mountains, embracing the Page and Warren and Shenandoah Valleys, must be seen to be appreciated.

In addition to the Springs proper, there are a number of others in the vicinity, the principal of which are: 1. The celebrated Mountain Spring, 160 yards distant; 2. The Cold Spring, a abort distance from this; 3: Immediately above is a Chalybeate, sending forth a limpful atteam; 4. To the south from the Springs, a bout three-quarters of a mile, gushing from the mountain side, is the Sweet Chalybeate Spring. The new Spring recently opened amid the beautiful group of willows that abace the Sulphur Springs, and which is believed to possess peculiar medicinal qualities, completes the list.

Visiters coming from the North or East, can enter the picturesque valley through the narrow passage formed by the proxinity or he mountains, about twelve miles to the north east from he Springs. The rugged grandeur of this satural defile, the rocks towering to the very clouds, strikes the travelier with awe and admiration.

On arriving at the Springs, hig invalid has at once withdrawn from the cares and perplexities, folls and monotony of the busy world, and may recuperate his exhausted energies by quaffing the pure waters that incessantly flow around him, and partaking of the rich viands that are daily prepared for the nourishment of his firail body.

We will state, for the benefit of those who may not be aware of the fact, that we own a large farm stached to the Springs, where persons can have their horses pastured or stabled as they may prefer.

The Bax will be furnished with the choicest Liquous, Cigara, Tobacco, &c.

This preparation has now borne the test of over 14 years experience, since its first introduction to public favor, during which time aumerous imitations have sprung into existence, founding their claims to the confidence of the communications. nity on the curative powers contained in Sarsaparilla Root, the great reputation and extended use of which has been the great reputation and extended use of which has been mainly attributable to the many wonderful cures effected by the use of this preparation. While Sarsapartiia Root forms an important part of its combination, it is, at the same time, compounded with other vegetable remedies of great power, and it is in the peculiar combination and scientific manner of its preparation, that its remarkable success in the cure of disease depends. Other preparations imitate it in the style of putting up, and in bearing the name of one of its ingredients, and here ends their resemblance to it.— Those needing a remedy and purifier like this, are request ed to noto where this difference exists, and in making choice of what they will use, not to take any other but that one cutitled to their confidence, from the long list of cures it has effected on living witnesses, whose testimonials and resi-dences have been published, and who are still bearing daily mony to its worth.

Messra. A. B. & D. Sanss,—Gentlemen:—Words can but feebly expices my opinions, in conveying the preasing intenigence that my write is restored to persect health by the use of your invariable barsaparilla. She was afflicted with a severe cutarrous disease that covered the whole surface of the body, so that it would have been impossible to touch any part that was free from the humor; the head, face, and body were covered with scales like those of a fain; the hair leif out in large quantities, and walking caused the most excruciating agones, as it affected the joints more severed than any other part. She suffered also a long time round a prostration of the liver, connected with general adbitity, and a prostration of the inervous system. Physicals, John in Surope and America, had exhausted the usual remedies, without effecting a cure, or scarcery affording resies, and Yours sincerely, FERRIER NAZER.

Messra. Sands, Gentlemen:—My little daughter was affected for a long time with Sore flead and byes, and by sing your Sarsaparilla, was perfectly cured, other medicines and Sarsaparilla having tailed to retieve her. Having seed it and tested its efficacy, I now confidently recommend tim preference to any other, as it seems to possess properlies not contained in any other preparation; and I find that unclassers after they lave used it, invariably want the ame article again, whenever they require a medicine tor which this is recommended.

REAL FIRE PROOF SAFES. MORE PROOF OF THE SUPERIOR QUALITY OF MESSRS. BURKE & BARNES' CELEBRATED FIRE PROOF SAFES,

THE character of these Safes, in St. Louis, was before so THE character of these Safes, in St. Louis, was better so well established, that any further test or proof of the fact of their being superior to all others, would have been unnecessary; but in order to accommodate Mr. Hall, the paientee and maker of "Hall's Patient Concrete Safes," which has burnt up all other makes of any note in the United States, (Wilder's patent included,) we took up his challenge and the result is given below by the Committee who superintended the burning of the Safes. We only repret that they were not left in the furnaces two hours longer.

The Safe which we tested is to be seen at our Store, and we invite the public to call and examine it as we feel confident that no one will ever doubt their fire proof qualifier after having seen the specimen which passed through the fiery ordeal on the 16th of June.

E. R. VIOLETT, & CO., Sole Agents for the Manufacturers, No. 13, Levee, and No. 26 Com. Street.

The undersigned, a committee appointed by E. Hall, on behalf of Hall, Dodd & Co., of Cincinnati, and Messrs. E. H. Violett & Co., as agents of Messrs. Burke, Earnet & Co. Pittahurg, to test the fire proof qualities of the sales made by their respective principals—report, that we have this day subjected a Safe of each manufacture, of similar size, which had been in vae two years, in ovens to a fire made with dry oak wood, and Pittahurg stone coal, for the space of five and a half hours, and during that time we believe the heat applied was far greater han that in any ordinary configration—that at the expiration of that time, on taking the safes from the farnece, and cooling their down, we found that the iron easting on both was in places estively burnt off, but that the books and papers sentirely unfulfied except alightly by the water med in cooling off.—This we found to be the case with both safes, and the only perceptible difference in the appearance of the Interior, was This we found to be the case with court sairs, and the only occeptible difference in the appearance of the Inferior, was that the varnish put the wood work of Burke & Barnes' safe was entirely univjured, while that on Hall, Dodd & Co.'s was blistered and blackmed. In conclusion, we would remark, that from the result of this test, we have no heaft at lon in recommending the safes of both parties to the confidence of the public.

Wild Cherry has long been known to possess important medicinal properties. This fact is familiar to every niatron, in our land, and Physicians often prescribe it in different forms for a variety of complaints. Tar, also, has been equally noted for its virtues; and some physicians, whose names are familiar to the whole country, have gone so force in declare that even-even-unpilon could be cured by that alone. In other hands, again, it was nearly valueless, owing roudoth, to their ignorance in preparing and administering it—a difficulty now entirely obviated by patient experience and long experiment.

The extraordinary medicinal powers of these two sub-stances are now, for the first time, combined and embadic.

Consumption by the use of "Wistar's Balsam of Wild Cherry."

Rush Creek township, Fairfield co. Feb. 25, 1832.

Dear Sir.—As I consider that my life has been greatly protonged by my being cured of Consumption by the use of "Dr. Wistar's Balsam of Wild Cherry," I will state the syntytoms of my case, that others similarly afflicted may be induced to try this invaluable remedy. I experienced great difficulty in breathing; had the hectic fever with violent flushes of heat and frequent cold chills, with severe pain in my side and breast accompanied by a very bad cough; was very restless at nights, and had great night sweats, persing, I should say, at least two galions a right, wetting the hed cempletely through. I had not been able to work for scars. But I was much emaciated, and almost helpless when I commenced using Wistar's Balsam of Wild Cherry. I have used in Bil IS bottles, land I am now free from all those complaints, for my health is good.

I am now 65 years old, and have not taken any of the halsam since 1846, because my health is so good as not to require any medicines. But if I should have any return of my former symptoms, I should use Wistar's Balsam of Wild Cherry. I procured the medicine of Measur, Fall & Mc. Gracken, your agents in Lancaster, Ohlo.

The Shaker prepared "Yellow Tock," and the "Red Honduras Sarsapatilla," are the invaluable sciencial agents from which Dr. Guysotta Improved Extract of Yellow Dock and Sarsaparilla is formed, and Laboratory of Dr. Guysott has given us the virtues of these roots in their perfection. His preparation contains all the restorative propierties of the roots, combined and concentrated in their utmost strength and efficacy.

Experiments were unde in the manufacture of this medicine until it was found that it could not be further improved. Accordingly, we find it resorted to almost universally in cases of Hepatic, Scorbutic and Cutaneous complaints for general prostration of all the vital powers, and all those tormenting diseases of the skin so trying to the patience and so injurious to the health.

The following case of Bemaiah Hughes is one of the most astorishing on record. After forty years sickness, two years excruciating torture, the amputation of oneleg, and the body and himbs almost a mass of eating, putritying, discharging ulcers, to be cured by eight bottles of Guysott's Extract of Yellow Dock and Sarsaparilla, is almost miraculous.
